- 54 Gbps peak traffic

- more than 125k routes announced on the exchange by members

Mix 2010 Fees: Peering

- 850 € / Year membership fee

- Peering ports:

  ▸ 1x100 mbps full 300€/m

  ▸ 1x1 Gbps full 700€/m

  ▸ 1x10 Gbps full 2,300€/m

- 'Fractional' ports available for a pay-as-you-go approach

Mix 2010 Fees: IDC

MIX Datacenter is not general purpose. We host only routing and transmission equipment from Carriers and Peering members
The only servers hosted are Root and TLDs NS, on a project basis.

- 19" Rack Space, AC A+B (routing eq. only)
    - 1/3 rack : free;
    - 2/3 rack : 217€/m;
    - 1 full 19" rack: 492€/m

60x60 tile, DC or AC A+B power, Transmission eq. only: 4K€/Year
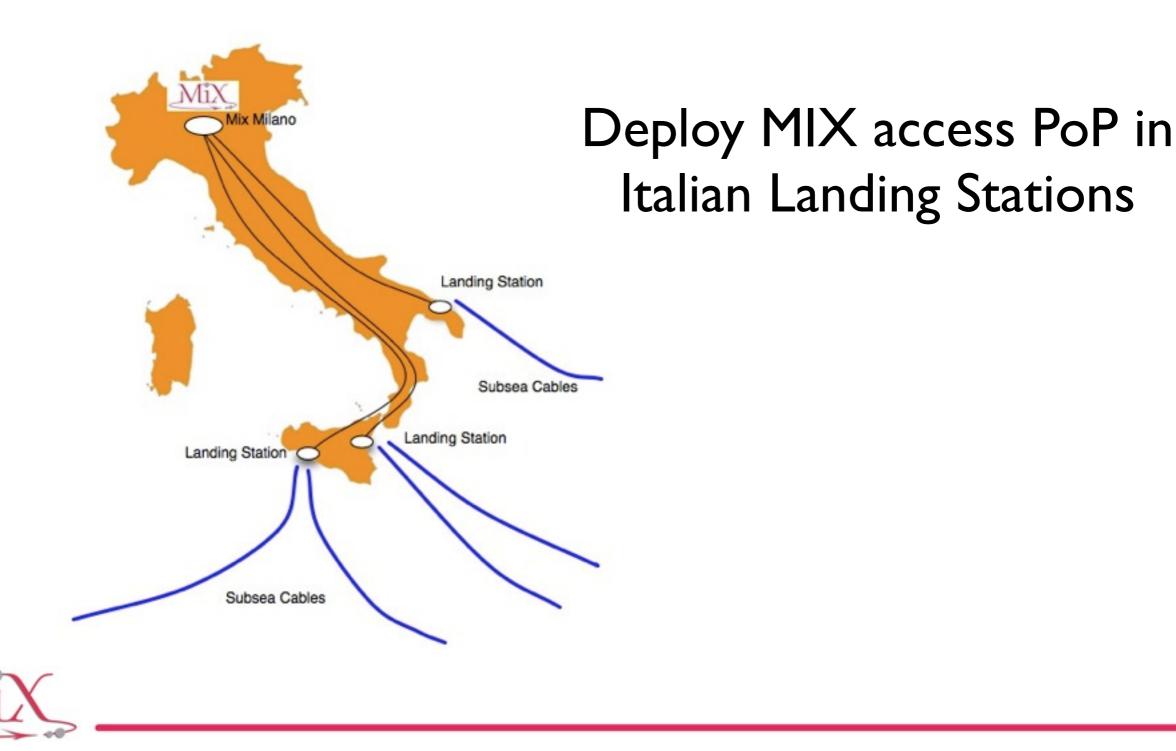

- power included -

MIX Recent Developments

- Beginning of 2010 we changed our fee scheme towards a more standard 'port-based' approach rather than the previous bandwidth based approach

- We're connecting more and more content providers, CDN and broadcasters both national and international with a significant increase in traffic (almost doubled in the 2H of 2009)

The 'Med' Project

Deploy MIX access PoP in Italian Landing Stations
